 - How the Course Facilitated Project Development
 - Suggestions for Course Improvement

Appendices

- Additional Material
 - Source Code
 - Design Diagrams
 - Presentation Slides

Notes:

- Guidelines suggest the main report should be around 4-5 pages, excluding appendices, source code and cover page.
- Ensure professional writing, correct language, and proper citation of resources.
- Ensure to upload a small mp4/video file showing your program is running with varying inputs
- Maintain academic and work ethics; avoid including classified information.
